

New SmartTrack | Stations

The City, Metrolinx and TTC are working together to bring more transit to communities across the City. In October, we will be hosting public meetings to provide information about the new SmartTrack/GO stations being planned in Toronto and to get your feedback.

The new SmartTrack/GO stations build upon Metrolinx's Regional Express Rail program, which includes increased service on five (5) of the existing GO rail corridors.

Within Toronto, six (6) new SmartTrack stations are planned for the Stouffville/Lakeshore East and Kitchener corridors and two new GO stations are planned for the Barrie corridor.

The City and Metrolinx will be undertaking a Transit Project Assessment Process under Ontario Regulation 231/08 to assess the potential environmental effects of the new stations. At this round of public consultation we will provide an update on project progress and an overview of planned environmental studies and concept schematics. We will be seeking your input on the proposed concept plans and key elements of the project.

HELP PLAN TRANSIT IN TORONTO

TUESDAY, OCTOBER 10

Scarborough Civic Centre
150 Borough Drive
6:30 pm – 8:30 pm
Presentation begins at 7:00 pm

WEDNESDAY, OCTOBER 11
